University of Winnipeg Regulations and Policies

- Class cancellation
 - When it is necessary to cancel a class due to exceptional circumstances, I will make every effort to inform students via uwinnipeg email, as well as the Departmental Assistant and Chair/Dean so that class cancellation forms can be posted outside classrooms.
- Communication
 - Students are reminded that they have a responsibility to regularly check their uwinnipeg e-mail addresses to ensure timely receipt of correspondence from the university and/or their course instructors.
- Respectful Working and Learning Environment Policy
 - All students, faculty and staff have the right to participate, learn, and work in an environment that is free of harassment and discrimination. The UW Respectful Working and Learning Environment Policy may be found online at <http://www.uwinnipeg.ca/respect/>
- Religious holidays
 - Students may choose not to attend classes or write examinations on holy days of their religion, but they must notify their instructors at least two weeks in advance. Instructors will then provide opportunity for students to make up work examinations without penalty. A list of religious holidays can be found in the [2019-20 Undergraduate Academic Calendar](#).
- Appeals and misconduct
 - Students are encouraged to familiarize themselves with the [Regulations and Policies](#) found in the [University Academic Calendar](#). Particular attention should be given to subsections 8 (Student Discipline), 9 (Senate Appeals), and 10 (Grade Appeals). Please note, in particular, the subsection of Student Discipline pertaining to plagiarism and other forms of cheating.
 - Students are encouraged to view the University of Winnipeg Library video tutorial “[Avoiding Plagiarism](#)”.
 - Detailed information about misconduct policies and procedures can be found at the following links:
 - * [Academic Misconduct Policy](#)

 - Uploading essays and other assignments to essay vendor or trader sites (filesharing sites that are known providers of essays for use by others who submit them to instructors as their own work) involves aiding and abetting plagiarism. Students who do this can be charged with Academic Misconduct.

- Copyright
 - Course materials are owned by the instructor who developed them. Examples of such materials are course outlines, assignment descriptions, lecture notes, test questions, and presentation slides. Students who upload these materials to filesharing sites, or in any other way share these materials with others outside the class without prior permission of the instructor/presenter, are in violation of copyright law and University policy.
